IsoMatch GEOCONTROL

An easy and profitable way of working”

Compatible with
**IsoMatch
FarmCentre**

Realising the full potential of farming is about growing and developing your business. When there is work to be done, you need the optimal setup and solutions to work as efficiently as possible. IsoMatch GEOCONTROL, an advanced precision farming application within the IsoMatch Tellus PRO and IsoMatch Tellus GO+, helps you to control all ISOBUS compatible machines. Combined with a GPS receiver it fulfils the future needs towards an easy and profitable way of working.

My way of Farming!

Information

Section Control (SC)

The Section Control makes sure that the implement's sections will be switched on and off automatically. This avoids undesired overlap and operation outside the field border.

- Shut off sections when driving over previously covered areas
- Shut off sections when driving outside field boundary
- Shut off sections when driving backwards
- Headland control
- Manual override possibility

Variable Rate (VR)

The Variable Rate will automatically adjust the rate of your machine based on Variable Rate maps. It enables you to vary the rate of for example seeds, fertiliser and chemicals.

- Forward place specific rate from task to machine
- Record applied rate from machine to task

Easily integrated set-up

Setup and full operation is conveniently controlled by one single application: IsoMatch GEOCONTROL. Precision implement control and tractor steering on one screen. Recording of (pre-recorded) straight or curved guidance lines can be done simultaneously with the field boundary registration. Multiple lines can be stored per field. Specific configurations and settings for a tractor – implement combination can be saved

Variable Rate

Section Control

Benefits

- **Section control** – Control up to 24 sections automatically with IsoMatch Tellus GO+ and up to 110 with IsoMatch Tellus PRO
- **Variable rate control** – Always use the exact amount of fertilizer, chemicals or seeds needed
- **Manual guidance** – Stay within your guidance lines in the field
- **Reports** – with IsoMatch FarmCentre you can download reports remotely
