Contact your local dealer
for more information!

Driven by advanced technology, precision agriculture will have a huge impact on traditional farming approaches across the world.

Stay informed with trustful insights

To allow for a better overview in farm management, Kverneland Group Mechatronics has developed the IsoMatch FarmCentre application, the first of a series of telematics solutions. IsoMatch FarmCentre is applicable for Kverneland Group ISOBUS machines in combination with an IsoMatch Tellus GO+ or IsoMatch Tellus PRO. Whether you wish to control your fleet, manage tasks remotely or analyze machine performance data, IsoMatch FarmCentre provides this in a simple web application, linking implements, tractors, and terminals in one continuous flow of data and connectivity.

- ① Intuitive interface that is easy to navigate
- ② Every detail is recorded in the system, from alert history to finished tasks
- ③ Increased efficiency as less time is spent on administrating tasks
- ④ Optimise usage of machine and make decisions based on historical data
- ⑤ With your device, stay fully up to date on what is happening on your farm
