

**THE BEST DIGITAL TOOL TO CONNECT  
YOUR MACHINES ONLINE  
ISOMATCH FARMCENTRE**

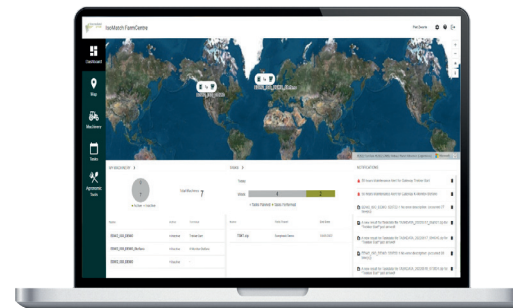

**IsoMatch FarmCentre is a wireless telematics solution for machinery optimisation and fleet management.**

### *Stay informed with trustful insights*

IsoMatch Tellus PRO or IsoMatch Tellus GO+ become the gateway to connect machines to the cloud and consequently, allows your device to control the fleet in real-time, send and receive tasks from the implements, receive alerts and analyse the collected data in pre-defined reports. All these features are included in an easy-to-use intuitive web application that works with any smart device like a laptop, tablet, or phone. IsoMatch FarmCentre also contains an exclusive Agronomic Tools module to integrate external software on demand such as agrirouter or specific FMIS like MyDataPlant.

Now available on  
IsoMatch Tellus PRO &  
IsoMatch Tellus GO+
