

NEW! KVERNELAND SYNC

THE HEART OF YOUR ECOSYSTEM

ALWAYS CONNECTED

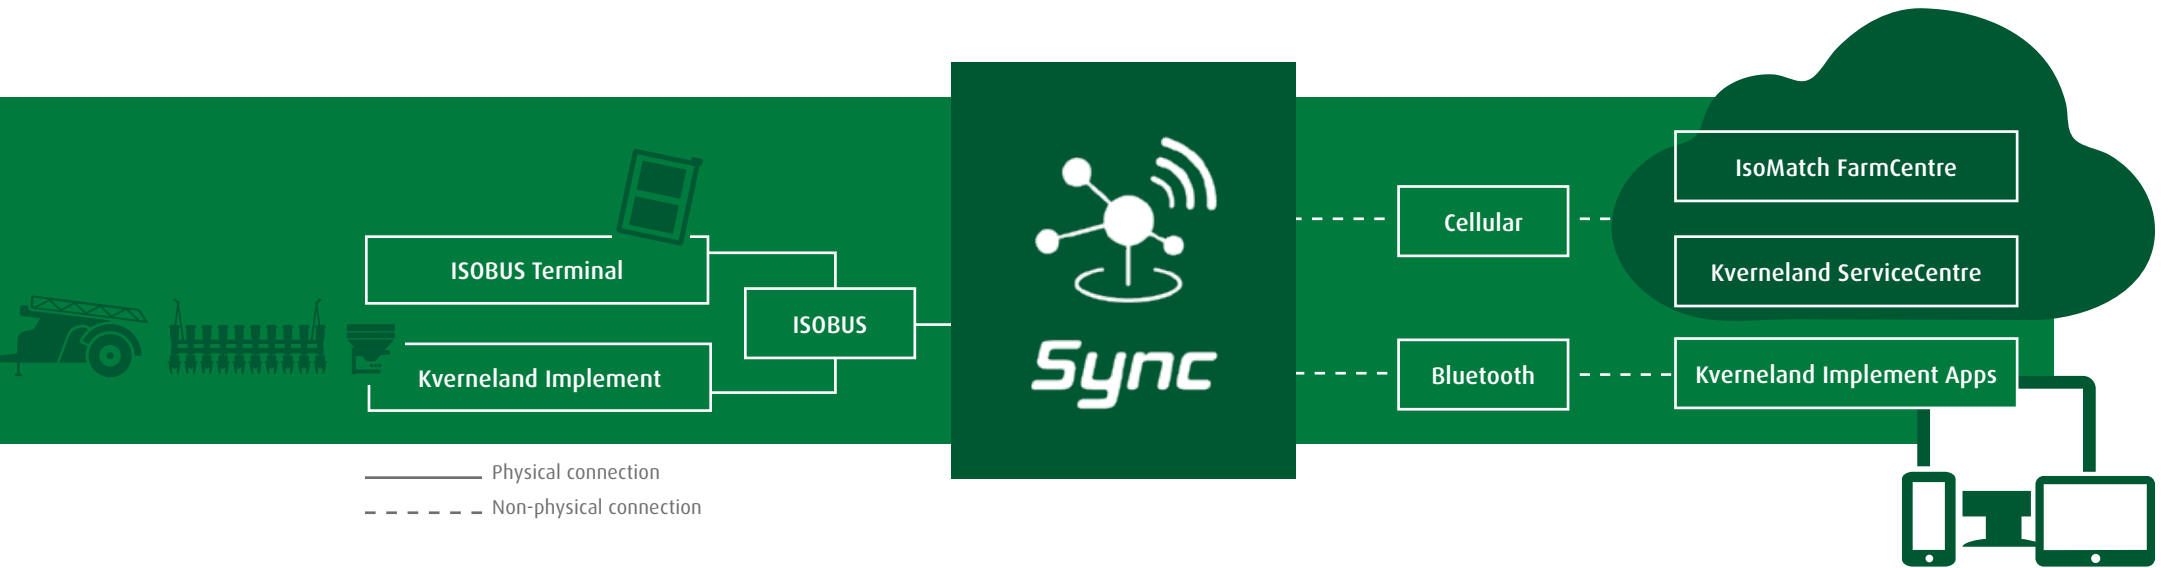

Sync

Kverneland Sync ensures smooth connectivity and farming data flow between your ISOBUS implements and digital tools.

KVERNELAND SYNC

THE HEART OF YOUR ECOSYSTEM

Always Connected

Kverneland Sync ensures seamless connectivity to online services, with smooth data transfer to IsoMatch FarmCentre and Kverneland ServiceCentre.

Tracking & Reporting

IsoMatch FarmCentre enables real-time tracking of operations and diagnostic codes, offering detailed reporting and secure task data storage.

Remote Service

Access remote support diagnostics with Kverneland Sync. Technicians can resolve issues promptly via Kverneland ServiceCentre.

New Features and Enhanced Safety

Enjoy synchronisation with Kverneland implement apps, precise tracking, and geofencing. Benefit from automated documentation, enhanced safety, and precise task planning.

Maximise Profitability and Growth

Seamlessly integrate implements with digital tools to boost profitability and success through real-time data analysis and performance measurement.

Terminal Connectivity

Connect your IsoMatch Tellus via Kverneland Sync for full access to digital tools directly on your terminal.
