

DENSUS 7060-7090
VARIABLE CHAMBER ROUND BALER

THE UTMOST EFFICIENT BALING

There is no better way to produce bales in such efficient way than with the new Kverneland Densus.

Well shape and dense bale for high effectiveness:

Well-formed bales with high density are key when harvesting valuable winter fodder and bedding. Bales with a fantastic shape not only look good, they are easier to stack, transport and store.

Talking of figures – the numbers add up too!

You'll find that Densus is cost-effective to operate: Fast cycle times and high output in all crop conditions, combined with low maintenance requirements, means you'll spend more of your time being profitable with Densus.

The Densus is packed with features that get your attention:

All new variable chamber with four super durable endless belts, larger diameter intake rotor, super wide 2.3m XL+ twin cam pick-up, and of course, the renowned PowerBind direct feed net system.

For productivity and ease of operation, once again the Densus leads the way: ISOBUS and TIM compatibility allow you to take full advantage of the latest labour-saving technology.

TECHNICAL DATA

Densus 7060

Bale size (m)

1.23 x Ø0.70-1.65

Baler Dimension, LxWxH (m)

4.60 x 2.80 x 2.80

Weight (kg)

3600

Densus 7090

Bale size (m)

1.23 x Ø0.70-1.85

Baler Dimension, LxWxH (m)

4.60 x 2.80 x 2.80

Weight (kg)

3850

NEW!

Kverneland Sync seamless connection

Easy serviceable bearings combined with automatic greasing

Efficient & reliable PowerBind binding devices

Simple and low maintenance driveline / cinematic

High capacity 520mm diameter rotor

2.30m large working width pick-up

Unique easy to operate Intelligent Density 3D system

Heavy duty large diameter rollers

4 heavy duty triple plies endless belts

High degree of automation from unique TIM features

Smart chock protected modern look integrated LED road lights

Bale ejection and humidity controls

Unrivalled bale density

15 single protected knives chopping device

Highly efficient Parallelogram DropFloor rotor unblocking device
