

PRESS RELEASE

Kverneland Qualidisc T Compact Disc Harrows EU-Homologated without Braking System

May 2025, Les Landes Genusson, France

Kverneland Qualidisc Pro 5001 T – with axle load under 3.5 tonnes, eligible for EU homologation without the need for a braking system – simple and cost-effective.

Since January 1st, 2025, Kverneland Qualidisc T compact discs have been available without braking system, simple and cost-effective, offering the customer a price advantage while still being EU-homologated.

Thanks to the smart design of the rear axle of the Kverneland Qualidisc T, more weight is transferred to the tractor hitch, resulting in a reduced axle load. For many models, this axle load remains now under 3.5 tonnes, making them eligible for EU homologation without the need for a braking system.

This technical design provides a cost-effective and easy solution for customers, combining compliance with EU regulations and reduced system complexity.

Five models, ranging from 4 to 6 metres in working width, are now available with this technical and economic advantage.

Type of discs	Models	Working width	EU-homologation	
			Without brake	Double-line brake
Conical discs 520mm	Qualidisc Farmer 4001 T	4m	✓	✓
	Qualidisc Farmer 5001 T	5m	✓	✓
	Qualidisc Farmer 6001 T	6m	✓	✓
Conical discs 600mm	Qualidisc Pro 4001 T	4m	✓	✓
	Qualidisc Pro 5001 T	5m	✓	✓
	Qualidisc Pro 6001 T	6m	✗	✓
	Qualidisc Pro 7001 T	7m	✗	✓
